

يَوْمُ عِثْرَةِ الدُّنْيَا طَلُّهُ

HELLO FROM THE CHAIRMAN

مaged
</ أهلا و سهلا />

My vision as an engineer has always been to build in style and follow the footsteps of those who created the unique Egyptian architecture, even when I started out as a contractor back in 1995 to the present day. Now as a developer, proudly introducing the newly established **Aqar Masr**, my work continues to fulfill that vision throughout Egypt. From my earliest developments in Upper Egypt, to the residential and commercial units I've worked on across Cairo and the North Coast, my values have remained the same since day one—pride and commitment, creativity and beauty, and lastly, a revival of Egypt's longstanding architectural culture.

Today it is my pleasure to bring you **Aqar Masr's** first project **Anakaji**. Inspired by the beauty of Nubia and set to inject the New Administrative Capital with 20 acres of colors and charm. This is a project that pays homage to a true Egyptian architectural aesthetic. Nubia is known for its incredible hospitality and inviting landscape. We've taken those elements, integrated them in a modern design and created a truly unique community for both families and couples to live in. From the flow of the spaces inside, to the natural surroundings outside, I know that **Anakaji** is a great place to start the next chapter in your life.
