WHAT WE DO SINCE 2005

Our journey began in the early 2000s with the launch of our first mall in 2005, strategically located in prime areas of New Cairo along key thoroughfares: South 90th Street, North 90th Street, and the Mohamed Naguib Axis. We have achieved significant success, most notably in customer satisfaction and adherence to international operational standards.

In 2019, we further expanded our vision and decided to broaden our development efforts in Egypt, offering premier concepts, prime locations, exceptional designs, and top-notch operations in three monumental towers in the New Administrative Capital, situated along the main tourist skyline near the new Tahrir Square.

Building on our success and excellence, we are now expanding to the West of Cairo, with a large-scale investment.
